

NODEARK

G64 MEDIA PLAYER™

Article number **NAAB1116**

PERFORMANCE IS IMPORTANT

The media player hardware has to process data simultaneously while playing media and running apps on the screen. In order to do this it is necessary to have a fast multi-threaded processor in combination with a lot of available memory.

NEW TECHNOLOGY

Using the latest technology Intel processors we can deliver high performance.

Our players using hardware decoding and can play three 1080p movies simultaneously. Please ask our competition what they can do as comparison.

DISPLAYPORTS IN 4K

The Quadro P2200 is the perfect balance of performance, and it features a Pascal GPU with 1280 CUDA cores, large 5 GB GDDR5X on-board memory, and the power to drive up to four 4K (3840x2160 @ 60Hz) displays natively. This allows for content creation workflows to work with ultra high resolutions.

H.264 AND HEVC DECODE ENGINES

Deliver faster than real-time performance for transcoding, video editing, and other encoding applications with one dedicated H.264 and HEVC encode engines.

TECHNICAL FEATURES

- Features Intel® 9th generation Core Processors
- PC design at only 10L (377 x 82 x 330 mm)
- M.2 SSD (2280) slot
- SO-DIMM DDR4 slot (2133 MHz)
- Intel® IEEE 802.11 ac, Dual Band Wi-Fi & Bluetooth 4.2 NGFF M.2
- 4 pcs DisplayPort 4K Outputs
- Intel Gigabit Lan

PERFORMANCE DATA

Processor	Intel® Core™ i7-9600K
Memory	16 GB SODIMM DDR4 minimum 2400 MHz
Storage	240 GB M.2 6Gb/s 600 MBps
Graphics	Nvidia Quadro P2200, 4 pcs DP 4096x2160 at 60 FPS
Power	Input: AC 100-240V Output: DC 19V 3.42A
Consumption Max	500 W
Warranty	1 Year standard (3 years optional)

WHAT'S INCLUDED

- Media player with 1 meter power cable
- Remote control with RF connection
- 4 pcs 5 meter DP cable UHD 3840x2160 60 FPS
- 3 meter UTP 6 Gigabit network cable
- Peli case style case
