SSD UPGRADE KIT

Article number **NAAB0071**

UPGRADE TO 240 GB

NODEARK VERSION 20.5

SECURITY PATCHES UNTIL 2025.4

SSD KIT FOR UPGRADING OR REPLACING YOUR DISK

With the Nodeark SSD upgrade kit you can upgrade your Nodeark G5 or G6 media player to the newest generation of software. Since it also comes installed on an 240 GB SSD you also enjoy the benefit of increased storage space on your device.

INCREASED STORAGE

The upgrade disk comes with 240 GB SSD storage and improved performance. We are using only the major disk brands for both our media players as well as our upgrade kits.

NEW FUNCTIONALITY

The upgrade kit comes with our system version 20.5. This means it's using Ubuntu 20.04 LTS as operating system combined with framework version 5.

EXTENDED SECURITY

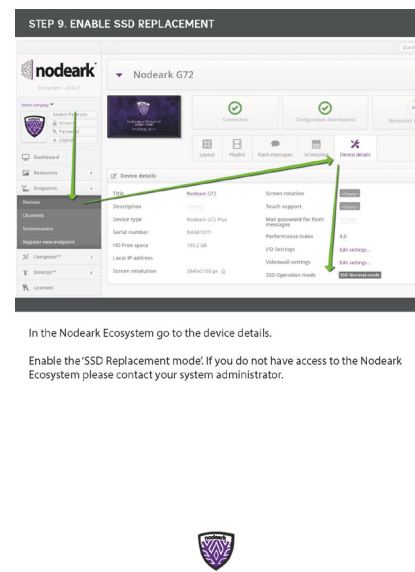

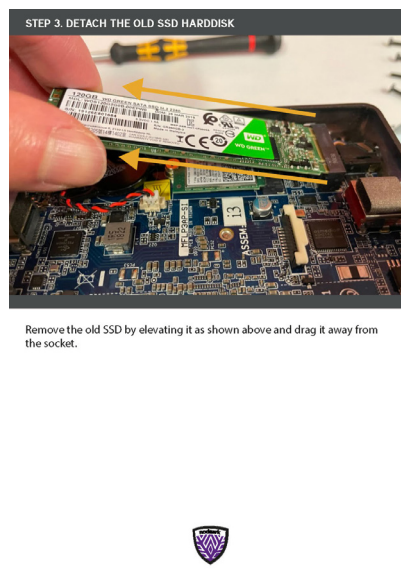

The operating system comes with Long Term Support until april 2025. This means that functional and security patches are updated live on the platform without the need for the administrator to take any action. Of course the disk can be used after this date as well but without the updates and patches.

TECHNICAL FEATURES WESTERN DIGITAL*

- SATA III 6 Gb/s
- Sequential Read up to 545 MB/s
