HARDWARE

NODEARK

G72 SDM

Article number NAAB1007S

PERFORMANCE IS IMPORTANT

The media player hardware has to process data simultaneously while playing media and running apps on the screen. In order to do this it is necessary to have a fast multi-threaded processor in combination with a lot of available memory.

NEW TECHNOLOGY

Intel i3 Processor offers efficient performance, multitasking, lower power consumption, and is cost-effective for everyday computing needs.

In digital signage, Intel i3 can run multimedia content, handle dynamic data, and support multiple displays efficiently and reliably.

INTEL UHD GRAPHICS

Intel UHD Graphics is Intel's integrated graphics solution, providing graphics processing capabilities within a computer's central processing unit (CPU).

Offers effective graphics, saves space, reduces power consumption and supports multiple displays. Ideal for professional use in mainstream digital signage.

THE BENEFITS OF INTEL SDM

Elevate your computing with this sleek, powerful, and versatile module, perfect for transforming displays into fully functional computers.

Intel SDM offers integrated solutions, saving space and reducing cables, compared to a separate computer and screen setup, ensuring a cleaner look.

TECHNICAL FEATURES

- Features Intel Core i3-1115G4
- Intel SDM slot design
- M.2 SSD (2280) slot
- DDR4 RAM
- Intel® IEEE 802.11 ac, Dual Band Wi-Fi
- 2 pcs HDMI 4K Outputs
- Intel Gigabit Lan
- Environment : Operation 0°C to 55°C

PERFORMANCE DATA

Processor	Intel® Core™ i3-1115G4
Memory	8 GB DDR4
Storage	240 GB M.2
Graphics	Intel UHD Graphics 4096x2160 at 60 FPS
Power	Input: AC 100-240V
Consumption Max	75 W
Warranty	1 Year standard (3 years optional)

WHAT'S INCLUDED

- Nodeark G72 SDM computer
- Remote control with RF connection
- 5 meter UTP 6 Gigabit network cable
- Box with EDM bag and foam packaging
